The products detailed in this catalogue represent our current range, and whilst every effort has been made to ensure accuracy of the information supplied, customers are requested to satisfy themselves of the suitability of any products required.

As Britax PMG Ltd employs a continuous development process, we reserve the right to amend specifications without prior notice.

Britax PMG Ltd produce 3rd angle projection drawings in accordance with BS 308 Part 1; however in this catalogue due to the variety of product, the space available and the need to show the most important dimensional information this may not always be possible. All dimensions are for reference only. Full outline/Customer drawings are available on request for most products.
