Britax

PUBLIC SAFETY EQUIPMENT

Public Safety Equipment (PSE) group is a leading global highway safety solutions business, supporting on and off highway vehicle applications worldwide. PSE group companies are focussed on providing product and technology expertise through market leading brands, for both the commercial and emergency services sectors. Commercial solutions encompass a range of special products, for on and off highway vehicles, including lamps, mirrors, switches and windscreen wiper equipment.

Other key products include police and emergency lightbars and related lighting solutions, digital in-car video systems and devices for manned speed enforcement.
